A photograph of a tunnel entrance. The tunnel walls are white and show signs of wear. The floor is dark and reflective. In the distance, a person is standing near a set of stairs. The word 'FAE' is written in large, black, stylized letters on the wall above the entrance.

A photograph showing a set of concrete stairs with metal handrails. The stairs are flanked by white walls. The floor at the bottom of the stairs is concrete with a metal grate. There are some yellow leaves scattered on the stairs and the floor.

A photograph of a metal cage, likely for a small animal. The cage has a white metal grid front. A large 'X' is formed by two metal bars crossing in the center of the cage. To the left of the cage, there is a small white sign with the number '6' on it. The cage is set against a dark background.

A yellow maintenance vehicle, possibly a track cleaner or ballast spreader, is positioned on a set of railway tracks. The vehicle is facing away from the camera, moving along the tracks. To the right of the tracks is a brick building, and to the left is a platform area with a red and white structure. The scene is outdoors, with trees and a cloudy sky in the background.
